Installation Errors

- For Installation Database Account must be SA
- For Installation Windows account/service account must have full administrative access.
- After installation set up least privileges:
 - Database account set to DBOwner
 - Setting Up least privileges necessary to run WebEOC
 - 1.Create account WebEOC is going to impersonate.
 - WebEOCLPA. LPA for Least Privileges Account.
 - Give WebEOCLPA permission to run as a Service.
 - Grant WebEOCLPA Full Control to
 - C:\WINDOWS\Microsoft.NET\Framework\v2.0.50727\Temporary ASP.NET Files
 - or
 - C:\WINDOWS\Microsoft.NET\Framework64\v2.0.50727\Temporary ASP.NET Files
 - Grant WebEOCLPA Full Control to
 - C:\Program Files\ESi
 - or
 - C:\Program Files (x86)\ESi
 - Grant WebEOCLPA Read/Execute control to C:\Windows\System32\inetsrv\config
 - Give the Pull Service the credentials to run as WebEOCLPA

Internet Explorer – Compatibility Mode

IE 8, IE9, and IE 10 have Compatibility Mode

- Some things work with it on, some only with it off!
- New Version of WebEOC with default boards likes it Off (Critchlow has found refresh issues with on)
- If your code is old and you use boards that have been around for awhile and old versions of WebEOC you might need it on
- If you use the newest cutting edge technology you might need it off
- Mixing old and new might mean you need to train your users as you probably have with Pop Up Blockers

Internet Explorer – Compatibility Mode

CRITCHLOW

Internet Explorer Version 10

- Sneaky Windows Update (kb:2718695)
- Not Officially Supported
- Recommended Compatibility Mode "On"
 Unlike IE 9, 8, you can pick a specific browser
- New Pop Up Blocker to be Disabled
- Can "Roll Back" if Admin
 - instructions on Support Site or send Critchlow Support an email
 - Open command prompt, cd\ wusa /uninstall /kb:2718695 /quiet /forcerestart

Internationalisation – Date Alternatives.
